

Are You Ready to Watch Football?

Enjoy the Game on a New Video System From tri city electronics!

February 2012

Mike Honeycutt Certified AMX Designer and Installer

Mike has received his certification for AMX Designer and Installer.

Our company uses AMX to program and control audio video, window shades, and HVAC systems.

Get rid of that drawer full of remote controls. Mike can program just one to use and you can store the rest.

Mike is a graduate of Lenoir Rhyne University with a degree in Computer Science.

He is married to Cathy they have a Boy Scout son named Jonathan.

Changes in Days Open

Dear Sibyle,

It is so much fun to watch football on a large screen with your family and friends. We can help you get ready for the big game Sunday evening. We carry Sharp, Toshiba, Panasonic, and Mitsubishi. Of course we install and service it should you ever have problems.

We are getting in some new McIntosh audio equipment. You will be amazed at the sound of the amplifiers, speakers and more.

Also to be shipped soon are Kef speakers. This line of speakers has been a huge success on our floor. People come to listen in our comfortable and high tech store.

We have many pieces of audio video furniture from Salamander, Avant Glide, Custom Shoppe and Dutalliar.

Hook up your gear yourself or we will be happy to deliver and install. Get ready for great music!

We appreciate your business.
Greg Hager

New Changes in our Days Open.

**Our new schedule will take place the
week of February 5.
Monday-Friday. 10:00 to 6:00**
